

The ultimate cybersecurity solution designed for small businesses

Small businesses are a growing target for hackers, now more than ever

43% of cyber attacks target SMBs.

60% of SMBs go out of business after an attack.

2.2M million per year in cybercrime costs for SMBs.

Reason Up provides your business with a strong security solution tailored to it's unique needs.

- 360 Employee Protection**
Ensures complete protection for business employees and their most vulnerable properties.
- Top AV Engine**
Detects and blocks the most sophisticated cyber threats towards businesses.
- Business Security Dashboard**
Allows you to easily manage, operate and monitor all security aspects from one place.
- 24/7 Live Support**
Provides 24/7 live support for every cybersecurity matter that may occur.

Withstand even the most sophisticated cyber attacks.

- Antivirus & Anti-Malware**
Detects and blocks malware and viruses using a scanner powered by a library of suspected malicious files.
- Online Anti-Phishing**
Protects you from online phishing attacks that can steal credentials and login information when you browse malicious websites.
- Malicious Website Blocker**
Provides enhanced protection against web threats, malicious websites, and suspicious files that can harm your business' network.
- Unwanted Software Advisor**
Provides valuable information on a software's reputation to prevent you from downloading malicious programs.
- Active Anti-Ransomware Shield**
Ensures complete protection for business employees and their most vulnerable properties.
- Camera and Microphone Protection**
Stops hackers from spying on your business through your webcam and microphone.

Explore flexible and affordable cybersecurity.
